

PATENT APPLICATION

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of

Docket No: Q64309

Hyun-Sook KANG, et al.

Appln. No.: 09/972,957

Group Art Unit: 2643

Confirmation No.: 6228

Examiner: TIEU, BINH KIEN

Filed: October 10, 2001

For: WIRELESS COMMUNICATION DEVICE AND CONTROLLING METHOD
THEREOF

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In the Examiner's Statement of Reasons for Allowance, the Examiner alleges, in part;

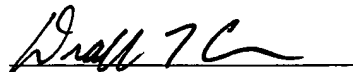

Furthermore, the prior art of record fails to clearly teach or fairly suggest a controlling method of the above wireless communication device comprising the steps of i) and ii) wherein these steps are repeated based on whether a change occurs in a number of slaves connected to a piconet of the master, as substantially described and connected to independent claim 5.

In response, Applicants submit that claim 5 specifically recites that "the step iv) is repeated based on whether a change occurs in a number of slaves connected to a piconet of the master." Emphasis added.

Respectfully submitted,
